

Thermakraft Foil Tape 150

Information Sheet

Product Description Thermakraft Foil Tape 150 consists of a metalized polypropylene film with an acrylic cold weather adhesive system.

- Excellent UV resistance
- Can be used on metal and metal connections
- Long –life acrylic adhesive, will perform well in extreme environments; from -37°C to 127°C

Roll Dimensions 50mm x 50m

Rolls Per Carton 24 Rolls

Tape Properties	Temperature Range:	°C	-37°C to 127°C
	Total thickness:	mm	0.0508
	Tensile:	N/25mm	99.4
	Elongation	%	150
	Adhesion to Stainless Steel:	N/25mm	11.4
	Adhesion to Backing:	N /25mm	8.6

The recommendations contained in Thermakraft's literature are based on good building practice, but are not an exhaustive statement of all relevant information and are subject to conditions contained in the warranty. All product dimensions and performance claims are subject to any variation caused by normal manufacturing process and tolerances. Furthermore, as the successful performance of the relevant system depends on numerous factors outside the control of Thermakraft (for example quality of workmanship and design). Thermakraft shall not be liable for the recommendations in that literature and the performance of the Product, including its suitability for any purpose or ability to satisfy the relevant provisions of the Building Code, regulations and standards.
